DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 5 January 2006 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 2, 4-8, 10, 12-16, 18 and 20-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 2 depends on claim 1. Limitations are currently added to claim 1 including light guide passage, reflection ports and diffusion reflective plate. These limitations correspond to FIG. 7 elements 300, 304 and 302, respectively. Claim 2 recites in line 10 "at least one first optical wave guide" and in line 15 "at least one second optical wave guide". These limitations refer to the fibers such as those shown in FIG. 14 as 58-1 through 58-16 (see claims 7 and 8). The specification as originally filed does not teach using fibers with the optical bus of FIG. 7.

Art Unit: 2633

Therefore, claim 2 contains subject matter that are not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Similarly, claim 10 depends on claim 9 and recites similar limitations as claim 2. Claim 18 depends on claim 17 and recites similar limitations as claim 2.

Allowable Subject Matter

4. Claims 1, 9, 17 and 24-26 are allowed.

Response to Arguments

5. Applicant's arguments, filed 5 January 2006, with respect to the rejection(s) of claim(s) 1, 9, 17 and 24-26 under 35 U.S.C. 103(a) have been fully considered and are persuasive.

Therefore, the rejection has been withdrawn.
